[ProZ.com profile](#)

I'm a native Russian full-time freelance translator from English into Russian and from Russian into English. Having studied English throughout my life, I have extensive English knowledge of chemistry, physics, and biochemistry. Combining deep scientific insight and wide-ranging technical expertise enables me to translate the full range of technical and scientific materials from user manuals and marketing flyers to conference presentations and scientific papers.

Education:

Higher

Moscow State University, Chemistry Department, Moscow, Russia

Specialty: Chemist, Translator

Fields of specialization:

- Chemistry
- Medicine
- Pharmaceuticals
- Biochemistry
- Physics & Mathematics
- Computers (hardware and software)
- Tech/Engineering (general)
- Sports
- Automotive

Languages:

Russian – native

English – advanced knowledge of English, conversational level (9 years of learning English in school with advanced English, 2 years of studying in-depth chemical English at the Lomonosov Moscow State University, additional study of international online courses in English from the world leading universities, and working as a full-time freelance translator from and into English since 2013)

Ukrainian – B2 level

Polish – B2 level (I live in Poland since 2015)

Rates:

English → Russian Russian → English Ukrainian → English
0.08–0.10 EUR per word for translation
0.03–0.04 EUR per word for editing/proofreading

Work experience:

Freelance translator since 2013

I have worked on projects that include medical documents, records and patents, chemical articles and patents, biological and biochemical patents, technical manuals, marketing flyers, geological texts, certificates, diplomas, and legal documents. I have localized several websites and pieces of software including gaming websites, iOS applications, *etc.* To date, I have translated several million words.

2010–2015: Kurnakov Institute of General and Inorganic Chemistry RAS

Senior Research Assistant

Responsibilities: working on government contracts, RFBR projects, chemical research, researching works of similar topics in domestic and foreign science, contracting companies on the supply of equipment and raw materials, creating presentations for Russian and international conferences, writing reports, abstracts for conferences, and articles in peer-reviewed journals in Russian and English.
